

Federal Flood Risk Management Resources

Resources Information

Agency: NOAA Office for Coastal Management

Resource: (NOAA OCM) National Estuarine Research Reserves

Overview: NOAA provides funds to 29 state National Estuarine Research Reserves under Section 315 of the CZMA to operate and manage reserves. Funds support research, education, stewardship, system-wide monitoring, and graduate research fellowships at the reserves. Funding is also used to acquire land for reserves and construct reserve facilities as needed.

Funding Info:

- 1:1 ratio federal-to-state matching funds for land acquisition projects.
- 7:3 federal-to-state ratio funds for other operation, management, and construction activities
