

## Federal Flood Risk Management Resources

### Resources Information

Agency: U.S. Geological Survey

Resource: (USGS) USGS Flood Information

Overview: The USGS collects flood data and conducts targeted flood science to help federal, State, and local agencies, decision makers, and the public before, during, and after a flood. Our efforts provide situational awareness, drive predictive models, inform infrastructure design and operation, undergird floodplain mapping, assist flood constituent/load quantification, and facilitate flood impact assessments.
